BOUDDI NATIONAL PARK

Cultural tours through Bouddi National Park

Experience a guided bush walk through the national park based on your fitness level and how far you would like to hike. These walks are a complete sensory experience including information on local flora & fauna, medicinal plants, traditional bush tucker, storytelling and indigenous activities. Includes viewings of indigenous art and carvings and some of the peninsula's most sacred sites.

See the extraordinary coastal sandstone cliffs, discover hidden beaches and immerse yourself in the wonders of nature as you meander along our stunning coastline.

We can pack you a picnic lunch, and there are plenty of photo opportunities around every bend. Wildflowers are blooming in Spring (September to November) and you may even see a migrating whale - May to July heading north or September to October heading south for the Summer. You may even like to take your bathing costume for a dip in the salty ocean which contains many vital elements for the human body including high levels of magnesium to reduce stress, relax muscles, induce calmness and promote deep sleep.

The following walks and tours have been formally approved by NSW National Parks and endorsed by the Darkinjung Land Council and the Guringai Tribal Link Aboriginal Corporation.
